OBJECTIVE

First of all, I want to become a Senior Front-end Developer. So, I keep working hard every day to make it come true. After I got that level, I will try a bigger plan. Besides, I'm learning and improving my English skills.

PERSONAL SUMMARY

- Over 4 years of experience in HTML, CSS, JavaScript (ES6), ReactJS.
- Proficient use of Ant Design, git, redux (thunk & saga), hooks, styled-component.
- Good knowledge of NodeJS, docker, restAPI, socket, firebase, google map, TypeScript.
- Good at problem solving and technologies researching.
- Organization skills, abilities to work well under pressure.
- Open minded, hard working and fast learning.

EXPERIENCE

MARCH 2022 - NOW

Front-end Developer

DELIVEREE LOGISTICS WEB APP

Description: Southeast Asia's leading delivery logistics platform to book a wide range of vehicles to transport goods.

Responsibilities:

- Add new features and fix bugs.

- Work with the back-end team to analyze the API that's needed to use in the project.
- Optimize and improve the source code.

Technologies: ReactJS, Ruby, Sentry, Firebase, Google Map, Docker.
